The world is yours...

Imagine a perfect world...a world where all children have the family support and encouragement to finish high school, a world where they can learn and plan for a successful future. What a wonderful vision!

Victoria Foundation believes that every child is born a star. But in the course of growing some of them are being deprived of this opportunity through various reasons being parental disengagement, economical difficulties, diseases, poverty, geographical locations and even political disabilities.

At Victoria Foundation, we believe the best way to change a child's life is to change the world in which they live. By sponsoring a child in Tanzania you will help to bring about long-term benefits to the sponsored child, their family and community, so they have a chance of a better future.
